# PRINT STUDIO

DIGITAL IMAGING CENTER

Bring your ideas to life in the Print Studio. Create posters, cards, books, zines, Riso prints, and 3D objects—with staff available to help you get started. Located on the 1st floor at 209 East 23rd Street, the Print Studio is the Digital Imaging Center's dedicated print and making space.

## 1. Computers & Printing

**iMac Workstations** · Approximately 20 iMac workstations with the latest Apple M-series chips and current software are available for quick edits before printing.

| PRINTER | PAPER TYPE | PAPER SIZES (INCHES) |
|---|---|---|
| **Canon 5560** | Light paper | 8.5 × 11, 11 × 17, 12 × 18 |
| **Canon 700** | Medium paper | 8.5 × 11, 11 × 17, 12 × 18, 13 × 19 |
| **Canon 710** | Heavy paper | 8.5 × 11, 11 × 17, 13 × 19, 13 × 30 |
| **Canon large-format plotter** | Roll printing | 36″ and 44″ roll widths |

## 2. Paper & Rolls

| PAPER STOCK | BEST FOR |
|---|---|
| **28 lb regular paper** | Test prints, sketches, and text documents. |
| **65 lb text stock** | Posters, zines, and perfect bound books. |
| **100 lb card stock** | Postcards, business cards, and softcover book covers. |
| **Large-format rolls**<br>36" and 44" widths | **Paper options**<br>Matte, luster, and bond paper |

Take-home print guide available at the front desk.

## 3. Help & Shared Tools

**Staff Support · Working Artists**

New to printing? A staff member and student assistant at the front desk offer technical help, material advice, and a fresh perspective—including help choosing a process, materials, or workshop.

**Shared Tables & Tools**

Bone folders, scissors, rubber cement, tape, staplers, and hole punchers. All tools stay in the Print Studio.

## 4. Learn through a Workshop

Our 30–60 minute workshops introduce the equipment and process. After completing a workshop, students can book personal equipment time. Schedules are available at the front desk.

### a. Bookbinding

**Learn:** Perfect binding, tape binding, and hardcover construction. Sewn books are welcome. **Materials & finishing:** Laminators, creasers, squareback machines for flattening zine spines, and hardcover materials—including easy-adhesive hardcovers—in varied colors and finishes. **Staff assistance:** Staff can trim books and chipboard on the industrial cutter.

### b. Riso Printing

**Learn:** Drum changes and multi-color file setup on a two-drum Riso. **Inks & effects:** Approximately 14 colors, including fluorescents for bright neon prints. Layer colors and values to create new colors, with offset registration and a screentone appearance.

### c. 3D Printing

**Learn:** Bambu Lab software and the model-to-print process. Two printers can work in tandem for large projects. **Filaments & colors:** Approximately 12 colors; plain, metallic, and glow-in-the-dark finishes. Up to 12 colors in one print. **Printing options:** Ask at the front desk about printing your project yourself or dropping off files for staff printing.

## 5. Book a Workshop or Studio Time

Visit the SVA DIC website and open **DIC Workshops** to choose a workshop or studio time, or scan the QR code at the front desk.

**Online resources** · Video tutorials and FAQs are available on the SVA DIC website.
